The One & Only NATHAN GRINER ★ One Man Show ★

“... | DON'T KNOW HOW HE DOES ALL OF THAT AT THE
SAME TIME!”

“HE IS SO UNIQUE!”

“UPBEAT AND PASSIONATE”

Nathan Griner's style has a huge range of passion. He also has a very unique show to see and hear. Nathan has never been an artist that has been boxed into one specific style. His sound is reminiscent of "The Lumineers" with the instrumentation stylings of "Shakey Graves" and mixed into a style that is yet all his own. His take on the obscure covers he plays, and his songwriting abilities leave audiences wanting to hear more.

Nathan lives in Hastings, MN with his wife Sasha and four children Penny, Ophelia, Lennon, and Eamon. Nathan has been writing music since the age of nine and has found his roots in Americana music. With his foot stomping, hand clapping style Nathan is able to capture the attention of any audience. Playing a mix of his original works and some obscure covers he does not disappoint.

Nathan studied guitar at McNally Smith College of Music for 2 years and has since found a home with the Americana/folk/bluegrass styles. He has been in a few bands, but has always stood out having really big sound as a one person show. His eclectic taste in and love of music, stories of family and how they have shaped his music shine through in his shows. Nathan has just finished his 5th album "This Road" which is releasing May of 2023.

Nathan currently works full time driving a recycle truck, being a father to four wonderful children, playing music whenever he can, and writing music. He is currently in process of writing a new CD and plans to complete it this summer. His hard work and dedication to everything he does is what sets him apart from others and truly makes him outstanding on and off the stage.
